Tangerine Salon

Hair Salon · 4151 Waller Creek #110, Highland Village, TX 75077

Your Highland Village listing is strong: 949 reviews averaging 4.9, and first in Google Maps for 4 of the 6 searches we ran. Your website is well built, but it never showed up in Google's regular results for any of those searches, and the listing itself has no booking button.

YOUR GOOGLE LISTING

A dominant, complete profile.

Category, hours, 20 services and a description are filled in, with 149 photos and a fresh post. 949 reviews average 4.9, and you rank first or third in every search we ran. The one gap: no booking button on the listing itself.

What is holding this grade down: No booking button on the Google listing, so anyone tapping the map result has to leave it to book, even though your website has one.

YOUR WEBSITE

Well built, but invisible in search.

One headline, a full meta description and structured data are all in place, and the booking page works. The site never appeared in Google's regular results for any of the 6 searches we ran, and the homepage has no map, directions or working /contact page.

What is holding this grade down: Not appearing in Google's regular search results for any of the 6 searches we ran, and no map or directions on the homepage.

4 of the 6 searches we ran put you first in the map pack, and the other 2 put you third, inside the top 3 every time. None of the 6 put your own website in Google's regular results; Yelp, Facebook, Vagaro, Fresha and GlossGenius profiles rank there instead.
