

— PREPARED FOR

Capstone Roofing & Construction

Roofing Contractor · 2611 Cross Timbers Rd, Flower Mound, TX 75028

Right now, a homeowner searching Google for a roofer in Flower Mound will not find Capstone Roofing & Construction at all. The domain on file, capstonerandc.com, has lapsed. There is no Google Business Profile live under your name either, and the phone number on file connects instead to a listing for a different business that Google marks Permanently Closed. Every search we ran this week put named competitors in every seat, the map pack, the organic results, the reviews, while this business had none.

F

YOUR GOOGLE LISTING

No working Google listing

No Google Business Profile is live under this business's name. The phone number on file connects instead to a profile for an unrelated business, marked Permanently Closed.

What moves this grade most: One verified, correctly named Google Business Profile, live.

F

YOUR WEBSITE

The website has lapsed

capstonerandc.com is not just broken, it is not registered anymore. Every check in this audit comes back empty, because there is no page left to check.

What moves this grade most: A working website first. Nothing else here matters until there is a page for a customer to land on.

— WHAT IS ALREADY WORKING

- ✓ Word of mouth already exists without a website or a live Google listing: a recent customer online described a full roof replacement as pain free and called the crew fast and friendly.

— THE THREE FIXES THAT MATTER MOST

1**Get a real website live**

capstonerandc.com has lapsed.

2**Get one correct Google Business Profile live**

There is no Google Business Profile live under Capstone Roofing & Construction.

3**Fix the name and address everywhere**

Public directories currently show this business under two different names and, in at least one case, two different addresses, all tied to the same phone number.

— YOUR GOOGLE LISTING

No working Google listing

F

No Google Business Profile is live under this business's name. The phone number on file connects instead to a profile for an unrelated business, marked Permanently Closed.

✗ Business info & hours	No Google Business Profile under this business's own name; the number on file instead connects to a permanently closed listing for a different business.	F
✗ Categories	No verified profile, so no category on file.	F
✗ Products & services	Roof replacement and roof repair are not listed anywhere on Google for this business.	F
✗ Photos & media	No photos of completed jobs, the crew, or the shop appear on Google.	F
✗ Reviews & responses	Zero Google reviews under this business's name to respond to.	F
✗ Map pack visibility	Checked against six real local searches this week; did not appear once.	F

WHERE YOU SHOW UP

Where you show up on Google

SEARCH	GOOGLE MAP PACK	YOUR WEBSITE	WHO RANKS FIRST
roofing company Flower Mound	✗ Not in the map pack's top 20	✗ Not in the top 30	T Rock Roofing & Contracting
roof repair Flower Mound	✗ Not in the map pack's top 20	✗ Not in the top 30	T Rock Roofing & Contracting
roofer near me Flower Mound	✗ Not in the map pack's top 20	✗ Not in the top 30	T Rock Roofing & Contracting
roof replacement Flower Mound	✗ Not in the map pack's top 20	✗ Not in the top 30	T Rock Roofing & Contracting
emergency roof repair Flower Mound	✗ Not in the map pack's top 20	✗ Not in the top 30	Presidio Roofing Company of Flower Mound
roofing contractor Flower Mound	✗ Not in the map pack's top 20	✗ Not in the top 30	T Rock Roofing & Contracting
Searched from Flower Mound, Texas, Sept 28. Your phone may show a slightly different order depending on where you're standing.			

T Rock Roofing & Contracting held the top map pack spot in five of the six searches we ran; Presidio Roofing Company of Flower Mound held it in the sixth. Neither this business nor its website appeared anywhere in any of the six.

— YOUR WEBSITE

The website has lapsed

F

capstonerandc.com is not just broken, it is not registered anymore. Every check in this audit comes back empty, because there is no page left to check.

— WHAT NEEDS WORK

- ✗ **Page title.** The domain has lapsed, so there is no page title to read.
- ✗ **Structured data (schema).** No page loads, so there is no schema markup to check.
- ✗ **Sitemap & indexing.** With the domain lapsed, Google has nothing current to crawl or index.
- ✗ **Broken pages.** Every page on this domain is broken: it is not registered anymore.
- ✗ **Mobile & HTTPS.** No active HTTPS certificate or mobile layout, because there is no live site.

What moves this grade most: A working website first. Nothing else here matters until there is a page for a customer to land on. The technical checks behind this grade are on page 8.

FIXES YOU CAN MAKE YOURSELF, FREE

9 fixes that cost nothing but time.

This list is yours to use however you want, with us or without us.

YOU CAN DO THESE YOURSELF

- ☐ **Claim a Google Business Profile under the business's real name, Capstone Roofing & Construction, at the Cross Timbers Rd address.**
That search currently returns nothing under your name, so every local search is going to a competitor by default.
- ☐ **Search your own phone number, (972) 200-4340, in Google and look at the Aspire Exteriors listing it connects to.**
That listing is marked Permanently Closed.
- ☐ **Pick one business name, Capstone Roofing & Construction or Capstone Exteriors & Roofing, and use only that name everywhere going forward.**
Two separate Nextdoor pages, and other directories, currently show both names tied to the same phone number, which makes it harder for Google, and for customers, to recognize it as one business.
- ☐ **Re-register capstonerandc.com, or pick a new domain, before someone else does.**
A lapsed domain is available to anyone.
- ☐ **Update your Nextdoor business page with the current, correct address.**
It is the one place online where real customers are already leaving positive comments, and it is worth getting right.
- ☐ **Ask the last several customers who spoke well of the work online to leave a Google review once a profile exists.**
There are zero Google reviews to show a new customer right now, and this is the fastest way to change that.
- ☐ **Write down the exact list of services you offer, roof replacement, roof repair, and anything else you do, and use the same wording on every directory listing.**
Consistent service wording is a real part of how Google decides which searches to show you for.
- ☐ **Respond publicly to every review and comment you already have, including on Nextdoor.**
A future customer researching you sees whether you engage, at least as much as they see the comment itself.
- ☐ **Make sure the inbox behind your current contact email forwards somewhere you check every day.**
It is currently the only contact method besides the phone, so a missed message there is a missed lead.

— YOUR GROWTH PLAN

The changes, in the order we would make them.

1 Get a real website live

Today: capstonerandc.com has lapsed. There is nothing for a customer to land on if they search your name, click a link from a directory, or get handed a card with that address on it.

After: A customer who searches your name, or scans a QR code off a truck, lands on a real page instead of a browser error.

2 Get one correct Google Business Profile live

Today: There is no Google Business Profile live under Capstone Roofing & Construction. The phone number on file currently connects, in Google's own system, to a profile for a different, permanently closed business.

After: Your business shows up by name when someone searches for you, and becomes eligible for the map pack when someone searches for a roofer nearby.

3 Fix the name and address everywhere

Today: Public directories currently show this business under two different names and, in at least one case, two different addresses, all tied to the same phone number.

After: Google sees one consistent business instead of a scattered record, which is a precondition for ranking at all.

4 Start collecting Google reviews

Today: There are zero Google reviews under this business's name, even though customers online already describe the work in genuinely positive terms.

After: A real, growing set of Google reviews starts backing up the word of mouth that already exists.

5 Capture every missed call

Today: With no website and no online booking, a lead that doesn't reach a live person on the first try is a lead this business never hears from again.

After: A slow week stops meaning a quiet week; the leads that used to disappear start showing up as text conversations instead.

— WHAT IT COSTS

One plan, recommended for Capstone Roofing.

Essentials

RECOMMENDED FOR YOU

\$299
per month\$0
setup feeMonth to
month
no minimumCancel
anytime

Month to month, no minimum, and you can cancel anytime. Essentials covers four of the five fixes above directly: a new five-page website built from scratch, since there is no existing site to optimize, a Google Business Profile created and optimized under the correct name, and automated review requests and missed-call text-back to start capturing the leads currently going nowhere. Fixing the name and address across directories is one of the free fixes on the checklist earlier in this document, something you can do yourself before we ever start.

- ✓ A new custom 5-page website, built and published
- ✓ Basic on-page SEO built into the site, so it can be found
- ✓ Google Business Profile optimization
- ✓ Automated review requests after every job
- ✓ Or we optimize the site you already have
- ✓ Logo design, slogan and digital brand assets, or a refresh of the brand you already have
- ✓ Online booking and lead-capture forms
- ✓ Missed-call text-back

In your name from the first day, and yours if you ever leave: your website, domain, logo and brand assets, Google Business Profile, phone numbers, review profiles and customer list. We keep the software platform and the automations that run on it, the same as any software you subscribe to.

Automated texting runs in accordance with business texting regulations and carrier registration, which we handle as part of setup.

This is only the part we can see from the outside.

Call or text the number above, or reply to the email this came with. Work starts the day you sign, and the site is live within a week of us getting photos and access from you; the Google listing gets submitted for verification the same week, on Google's own timeline from there.

Call or text (469) 833-3033

or reply to the email this came with.

APPENDIX · FOR WHOEVER DOES THE WORK

Every check behind the grades.

You don't need this page to decide anything. It's the detail a web developer, or we, would work from.
