Dove Creek Animal Hospital

Veterinary hospital · 1200 Bent Oaks Ct, Denton, TX 76210

Your 4.7 rating from 226 reviews is strong, but Google's own listing doesn't show it off: no description, no Posts, and no Book Online link, though your website has one. The website itself holds up well, held back mainly by eight <h1> tags on the homepage and educational articles that haven't been touched since 2019.

YOUR WEBSITE

A working site with a cluttered homepage.

WHAT NEEDS WORK

- ✗ **Main headline.** The homepage prints eight separate <h1> tags: the real page heading, plus seven blog-post titles pulled in by a widget.
- ✗ **Content freshness.** The newest educational article on the site is dated January 2019, and the homepage's own last-modified date is June 2023.
- ✗ **Structured data.** Organization, WebSite, WebPage and BreadcrumbList schema are present, but your address, phone and hours aren't being carried to search engines through it.
- ! **Contact page.** The contact page loads with your phone, email, address and hours, but there's no contact form, a visitor has to call, email or use the booking widget instead.

What is holding this grade down: Eight <h1> tags on the homepage competing with the one that should lead it, and educational content that hasn't been refreshed since 2019. Every check behind this grade is on page 6.

Yours to keep

in your name

Not covered by this job: Posts, Main headline, Content freshness, Map-pack visibility, Structured data. Worth a conversation. Your website does not need replacing. If you ever want a new website, we build a custom 5-page site for \$1,500. It would replace the site you have now.

Everything we build or correct stays in your name: your Google Business Profile. You keep every login.

Your website is already doing its job. Your Google listing isn't.

A short call would walk through what's on page 2 and 3: what a blank description and no Posts cost you against a clinic with more than seven times your reviews.
