3rd Generation Paint and Body

Auto body shop · Sanger, TX

Your Google listing is doing real work: 25 reviews averaging a perfect 5.0, and first in the map pack for two of the five searches we ran. The gap is what happens after someone finds you. There is no website of your own behind that listing, no booking link, and for "auto body shop near me" and the hail-damage search, a competitor shows up ahead of you.

YOUR GOOGLE LISTING

First for category searches, slipping on "near me" and hail repair.

Your profile is claimed, detailed, and your reviews lead every nearby competitor Google surfaces, but you rank first for only two of the five searches we ran. There is no booking link, and only 11 photos are on the listing.

What is holding this grade down: No booking link, only 11 photos, and third place on two of the five searches we ran.

Yours to keep

in your name

Not covered by this job: Map results across five searches. Worth a conversation.

Everything we build or correct stays in your name: your website, domain and Google Business Profile. You keep every login.

Your reviews and your map position are already pulling their weight. The gap is what a customer finds after that: nothing with your name on it.

A short call would walk through the rest: what a customer sees when they search "auto body shop near me" instead of finding you, and what happens to an after-hours hail call when there is no site to catch it.
